The Dahl Auto Museum celebrates the Dahl family's involvement as automotive dealers spanning over 100 years and five generations. It also features the history of the automobile through the eyes of the Ford Motor Company, an extensive mascot collection and many beautifully restored classic automobiles from the turn of the century to present. Approximately 20 antique and classic cars are on display to highlight each decade from Dahl Automotive's inception in 1911. To incorporate historic La Crosse, the museum also features a re-creation of the Starlite Drive-in eatre.

The shape of this immense and beautiful chapel symbolizes attributes of God. The high ceilings represent a God who transcends the finite world while the shape of the nave, transepts and sanctuary form a cross, acknowledging an immanent God who has been with humankind even through suffering and death. At the entrance of the chapel, just above the door, a relief of Moses before the burning bush is showcased. Admire bronzed statues, symbolic paintings and sculptures, stained glass windows and mosaics.

This beautiful Victorian house is filled with nearly all of the original furnishings, making it stand out from many other historical homes. The construction of the home began in 1858 by lumber baron Gideon Hixon, who featured beautiful woodwork and ornate interior decoration. His wife, Ellen, is responsible for the decoration of the home, who chose the late Victorian/Edwardian style, accenting rooms with “Turkish Nooks.” It is listed on the National Register of Historic Places.

Riverside Museum exhibits chronicle the history of La Crosse, concentrating on the Mississippi River and its importance to the area. Exhibits range from prehistoric artifacts and cave drawings to logging, rafting, and the Pearl Button Process. A large collection of artifacts from the steamboat “War Eagle” are on display and a PBS Video about La Crosse is shown.

La Crosse enjoys thriving relationships with sister cities, business partners, students and people from around the world. To celebrate the success of these partnerships, and build a tribute to the culture and traditions, the township decided to create a garden filled with the flowers and decorations closely resembling a garden that could be found in each one of these sister cities. In the Chinese Gardens, principles of Feng Shui are showcased as rock, soil, water, architecture, and plants are harmoniously and meticulously to create a free flowing movement, just as they would be arranged in ancient China. In the French Garden, finely trimmed plants, granite statues, and elegant fountains are arranged in a formal and geometric pattern, recreating the sophistication and romance found in France. The German Garden is adorned with colorful hydrangea, roses, and fruit bearing shrubs, which set a vibrant contrast to the Rock Garden and pergola. Inside the Norwegian Garden, many waterfalls trickle past luscious rhubarb, strawberry, and blueberry plants creating an pleasantly aromatic environment. Conclude the day at the casual Russian Garden, with tree-filled groves, an elegant "Basedka" structure centerpiece, and beautiful sculpture focal points. Conclude the day at the casual Russian Garden, with tree-filled groves, an elegant "Basedka" structure centerpiece, and beautiful sculpture focal points.
