Nestled in the Tennessee River Valley, the city of Decatur boasts a rich and colorful history. Originally a river crossing for settlers west of the Appalachian Mountains, the town became known as Decatur in 1820. Settlers were drawn to the community at this time by its fertile river valley soil and relatively easy river access to other cities. Enjoy this charming Tennessee River town and all the amenities it has to offer!

This image shows a full page of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook paper. There are no margins, text, or other markings on the page.

ANTEBELLUM TO AIR AND SPACE TRAVEL

As we sail into the future, our motorcoach will bring us to the U.S. Space & Rocket Center. This facility was established in 1970 in a quaint Alabama town, known forever as the place where America's space program was born. Today, the center is the location where America's next great ship – the Space Launch System, is being designed. Learn about Huntsville's role in the making of the moon rocket, explore the Space Race, the Apollo Missions and experience an in-depth look at the Space Shuttle Program, the International Space Station and NASA's future missions. Trace the evolution of humankind's ventures into space and watch as tomorrow's potential engineers, scientists and astronauts train in one of the Space Camp or Aviation Challenge Programs.

Price: \$79.00 additional
Activity Level: 3
